

## Problem

Business processes of a company are linked to different authorities, technical tools, and the know-how of individual players. However, the solution to handle the business processes cost-effectively, expediently as well as in a simple, transparent, secure and time-saving way is still lacking.

## Vision

- **Software** and **Hardware** optimization of business processes
- tronbotix Community as a **decentralised business exchange**
- establishing **BOTIX Coin** as an economic means of payment to allow the tronbotix Community for financial benefits

## This is tronbotix

The project tronbotix was created in 2012 by the developer Ioannis Balasis. In 2016 **B&B IT Marketing GmbH** was founded. Ever since the ICO project tronbotix is part of **B&B IT Marketing GmbH**.

tronbotix offers a **software solution** for the whole business management. It is based on **Blockchain technology**, **artificial intelligence** and **Web technology**. Additional security is given by the CMS core **ULTRACODEX**, which is a Web App CMS.

**tronbotix Software** is available via **Bot Box**. This **mini server** is handy, energy saving, mobile and secure. **tronbotix Business Phone** constitutes a further hardware. Your future office will be compact, secure and modifiable, as progress never sleeps.

Another important innovation is the **tronbotix trade center**. **tronbotix Community** allows for services to be offered using **smart contracts** and **social services**. Naturally, private users may also integrate. **BOTIX Coin** serves as a secure and **decentralised cryptocurrency**.

## Blockchain Technology made in Germany

- smart Blockchain technology: transparent, decentralised, secure
- smart contracts
- social services
- artificial intelligence
- ULTRACODEX Business Software works on all devices
- tronbotix trade center for private and business users
- promoting start-ups
- tronbotix Partner for better conditions
- Marketing Support
- decentralised cryptocurrency
- high growth potential
- based on an own blockchain

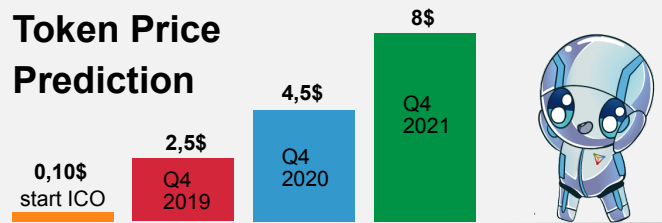

- Mini server Bot Box
- tronbotix Hardware Ledger
- tronbotix Business Phone

## Utility Token BOTIX (TNX)

BOTIX token serves as an own currency within the **economic tronbotix ecosystem**. **tronbotix trade center** allows for services to be offered and acquired using the BOTIX token.

## Token Price Prediction

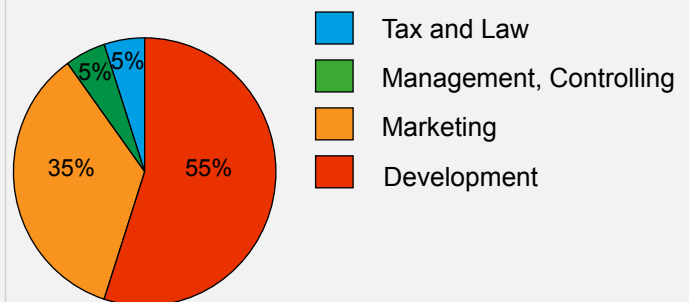

The tokens have a high growth potential, as BOTIX constitutes one of the four main tronbotix elements. **tronbotix software** and **hardware** are important factors for the token's economic success.

**With the remaining tokens, of the ICO phase, start-ups are promoted.**

## Distribution of Tokens

- 1. Pre Sale 15-JUNE-2018 – 30-JUNE-2018 (Investor Relations)
- Main Sale 01-NOV-2018 – 30-NOV-2018 (10% Bonus)
- 500.000.000 TNX (total number)
- 300.000.000 TNX (ICO Phase) 1TNX= 0,10\$

## Distribution of Funds

## Roadmap
